FOR IMMEDIATE RELEASE: October 24, 2011

STANWOOD – Pioneer Highway Road Closure Up-Date October 24, 2011

In order to conduct the necessary repairs, Pioneer Highway is closed for traffic from Logan Road to Douglas Creek effective immediately until further notice. The closure is a result of an earlier storm event that is slowly undermining the southbound lane.

A temporary detour is set-up for all northbound and southbound traffic. Please follow the detour routes.

The City and agency partners are committed to expediting the repairs. We are hoping that the road can be put back into full service by early November 2011. Please check back with us for project up-dates as we progress with repairs. Thank you for your patience during this time
